

MICROTROL provides Sterilisation and Bio-burden reduction services to manufacturers and processors of Disposable Medical Devices, Packaging Material, Ayurvedic & Herbal Products, Nutraceuticals, Pharmaceutical Ingredients & Formulations, Pharmaceutical & Cosmetic raw material, Spices, Condiments and other agro produce

In existence since 1983, the Company initially offered Ethylene oxide (EtO) sterilisation services only but in view of changing market trends and customer requirements, **MICROTROL** established a Gamma Radiation Sterilisation (GRS) services facility at Bengaluru followed by Natural Pasteurisation Services (NPS) facilities at Edayar and Bengaluru, thus becoming the first Total Sterilisation Solutions provider in India

EXISTING FACILITIES

The **MICROTROL** network today comprises of:

- ✓ 1 Gamma Radiation Sterilisation Services Facility in Bengaluru, Karnataka
- ✓ 14 EtO Sterilisation Services Facilities located in India & Vietnam:

Baddi	Bawal	Bengaluru	Edayar	Gurgaon	Jigani	Kochi
Mahape	Manesar	Mumbai	Sidhpur	Tuticorin	Vasai	Vietnam
- ✓ 2 NPS Facilities in Edayar, Kerala and Bengaluru Karnataka
- ✓ 1 EtO Formulations' Plant located off Wada, Maharashtra

GRS FACILITY

The GRS facility at Bengaluru bears special focus on customer needs, convenience and offers flexibility; the facility processes:

- Disposable Medical Devices
- Packaging Material
- Nutraceuticals
- Ayurvedic & Herbal products
- Spices, Condiments and other agro produce
- Pharmaceutical Formulations
- Pharmaceutical & Cosmetic Raw materials

to a wide range of doses; from 2 to 35 kGy, and more

The facility is designed to house a maximum Cobalt-60 source strength of 1,000 kCi

QUALITY STANDARDS AND CERTIFICATIONS

All products are treated in accordance with their respective Quality standards

MICROTROL's GRS facility complies with relevant codes of Good Irradiation Practice and is managed by a team of young professionals

The facility has been audited and certified complying with the following standards:

- ISO-9001:2008
- ISO-13485:2003
- ISO-11137:2006
- ISO-14001:2004
- ISO-22000:2005

and is accredited by the European Commission, the only private sector facility to be accorded such certification in the Country. The facility has also received cGMP approval from USFDA & Health Canada

VISION

MICROTROL would pace technological developments to make its services synonymous with Quality & Reliability and also continue to provide customised solutions from its existing and new sites within India and in the Region
